EDUCATION

Mindoro State University - Calapan, Oriental Mindoro, PH

Jun 2022 – 2026

Bachelor of Science in Information Technology

Dean's Lister, AY 2023–2026

Relevant Coursework: Web Development, Database Systems, Software Engineering, Human-Computer Interaction, Systems Analysis & Design, Object-Oriented Programming, Data Structures & Algorithms, Integrative Programming & Technologies, Embedded Systems, Capstone Project

Capstone Role: Technical Writer/Documentation · UI/UX Designer · QA Analyst

WORK EXPERIENCE

New San Jose Builders Inc. Quezon City, PH

Feb 2026 – May 2026

Developer Intern — Technical Documentation & QA

- Developed a web-based Attendance Monitoring System as an individual project using PHP, Node.js, and MySQL during a 486-hour internship.
- Implemented core features including employee time-tracking, admin dashboard, and reporting modules.
- Conducted QA testing, identified and documented bugs, and validated system functionality before deployment.
- Collaborated with the development team during sprint reviews and contributed to internal documentation.

UNIVERSITY PROJECTS

RM'S AI Inventory & E-Commerce System – Capstone Project

2025

Technical Writer/Documentation · UI/UX Designer · QA Analyst

- Contributed to the development of an AI-Integrated Inventory & E-Commerce Management System with Real-Time Demand Forecasting for REMHART, focusing on project documentation, requirements analysis, and system documentation.
- Designed UI/UX wireframes and prototypes; implemented end-to-end QA testing and authored system documentation.

DailyDrive – Task Management System

2026

Full-Stack Developer

- Built a full-featured productivity platform with Admin & User dashboards, task tracking, subtasks, file attachments, and real-time notifications using Node.js, Express, MySQL, and EJS.
- Implemented gamification features, recurring tasks, dark/light mode toggle, and automated due-date reminders via cron jobs.

SafePath – Bullying Complaint System

2024

UI/UX Design · QA Analyst

- Developed a student safety platform with AI-powered text classification using TensorFlow and Wit.ai, built on Express.js, Bootstrap, and MySQL.

Panchitan ni Unchang – Wix CMS E-Commerce

2024

Developer · UI/UX Designer · Technical Writer

- Designed and built a Wix CMS-based online ordering platform for a local Filipino restaurant with full system architecture and documentation.

MinSU Event Venue Scheduling System

2023

Developer · UI/UX Designer

- Built a web application for managing and reserving event venues at MinSU, featuring user authentication and reservation management using HTML, PHP, and MySQL.

A C T I V I T I E S & I N T E R E S T S

Currently Learning

- Actively learning Laravel & Vue.js for deeper full-stack development proficiency.
- Exploring AI integration techniques to build smarter, more responsive web systems.

A D D I T I O N A L

Technical Skills: Full-Stack Web Development, UI/UX Design, QA Testing, Test Case Creation, Bug Reporting, Technical Documentation; Proficient in PHP, JavaScript, HTML/CSS, Node.js, Express.js, Vue.js, SQL, Wix

Tools & Frameworks: MySQL · Figma · Canva · CapCut · FullCalendar · Chart.js · TensorFlow · Wit.ai · Arduino

Certifications & Training: OJT Certificate of Completion – New San Jose Builders Inc. · Fortinet Certified Associate in Cybersecurity · Fortinet Networking Fundamentals · CodeChum Python Programming II · Data Analytics – IT Specialist (ITS) · MC Tech Training – IT Specialist Data Analytics

Professional Strengths: Detail-Oriented · Goal-Driven · Collaborative · Strong Communicator · Quick Learner · Project Management

Tech Interests: UI/UX Research, Accessibility, IoT Systems, QA Automation, Frontend Design
